

Introduction

With a career spanning 18 years, Michelle Strange's enthusiasm for dentistry lies in the educational aspects of patient care. As an adjunct clinical faculty member with Trident Technical College, she educates her students and colleagues on the importance of interdisciplinary collaboration between medical professionals and caretakers. Her experience as a hygienist and surgical assistant led her to become the Educational and Professional Relations Manager for TePe Oral Health Care, Inc. after implementing their product with considerable success and patient compliance. Her most recent project, A Tale of Two Hygienists Podcast, was ranked the #1 Dental Podcast two years in a row. Through her passion for education, geriatric and implant dentistry, and modern techniques and products, Michelle seeks to inform and inspire the dental community.
